# INFORMATION SHARING DATA SOURCES

# Enhance Your Risk Management Through Cybersecurity and Fraud Information Sharing

The Secure Payments Task Force is working to improve the awareness and implementation of cybersecurity and fraud information sharing among U.S. payment industry participants. The task force compiled the following list of data sources that highlights broad-reaching intelligence reports, payments fraud trends, best practices and benchmarks, and additional resources that can help your organization address payments fraud risk. For example, financial institutions can leverage timely and actionable reports highlighting payments fraud incidents and cybersecurity threats occurring across the payments industry. Merchants and other business end-users can leverage best practices and benchmarks to help protect them from data breaches and fraud attacks. The list will be periodically updated based on the availability of new data sources and the payments security threat landscape.

This document organizes the data sources alphabetically by Information Sharing Source. Visit <u>SecurePaymentsTaskForce.org</u> to view the data sources in a web-based format and learn more about opportunities to engage with the Secure Payments Task Force.

Please note that this list is for informational purposes and is not intended as an endorsement by the Secure Payments Task Force or any member thereof.

# **LEGEND**

#### **APPLICABLE PAYMENT TYPE**

- All Payment Types
- ACH
- Check
- · Credit/Debit
- Wire

#### **RELEVANT PAYMENT SYSTEM PARTICIPANT**

- · All Payment Participants
- · Business End-Users/Merchants/Retailers
- Financial Institutions
- Non-Bank Providers (e.g. Payment Card Networks, Payment Service Providers, Payment Processors, etc.)

#### INFORMATION SHARING SOURCE

Sources of this information/data - how is it accessed or obtained

#### **DESCRIPTION OF INFORMATION SHARING**

 Description of the Information Sharing Source and/or the information/data that may be used to mitigate payment risk/fraud.

#### **LOCATION OF INFORMATION**

· Location of the Information Sharing Source

#### **AVAILABILITY**

- · Freely Available Accessible by anyone
- Membership Subscription Must be a member of the organization that supplies the information (fee may or may not apply)
- Simple Subscription Accessible only to those who sign up (fee may or may not apply)

#### **GENERAL OR TRANSACTIONAL**

- General Information/data used in a more general sense (outside the transaction flow)
- Transactional Information/data used to mitigate risk/fraud at the payment transaction level

# **Acquirer/Processor**

Merchant's Acquirer/Processor

Merchant acquirers/processors may offer fraud and risk management services directly to merchants or through a third party relationship.

# **American Bankers Association (ABA)**

#### https://www.aba.com

The American Bankers Association (ABA) is the united voice of America's hometown bankers—small, regional and large banks that together employ more than 2 million women and men, hold nearly \$17 trillion in assets, safeguard \$12.8 trillion in deposits and extend more than \$9 trillion in loans.

ABA believes that government policies should recognize the industry's diversity. Laws and regulations should be tailored to correspond to a bank's charter, business model, hometown markets, and risk profile. This policymaking approach avoids the negative economic consequences of burdensome, unsuitable, and inefficient bank regulation.

Through a broad array of information, training, staff expertise and other resources, ABA supports America's hometown bankers as they perform their critical role as drivers of America's economic growth and job creation.

# **Conference of State Bank Supervisors (CSBS)**

#### https://www.csbs.org/Pages/default.aspx

Bank members of CSBS benefit from our work to keep the state banking system strong. Through a Bankers Advisory Board, bank members bring the industry perspective to the Conference of State Bank Supervisors (CSBS) and regulator members with an eye towards improving the quality of supervision. Bank members also have access to first-class compliance and management training. CSBS publications and its website keep bank members fully up-to-date on news affecting state banks and the state banking system. The weekly Examiner newsletter is supplemented by web postings and other resources.

# **Credit Union National Association (CUNA)**

#### https://www.cuna.org/

The Credit Union National Association (CUNA) is the largest national trade association in the United States serving America's credit unions. The not-for-profit trade group is governed by volunteer directors who are elected by their credit union peers from across the nation. With its network of affiliated state credit union associations, CUNA serves America's nearly 7,000 credit unions, which are owned by more than 100 million consumer members.

CUNA partners with the state associations and credit unions to:

- · Represent the interests of credit unions before the U.S. government, including Congress and federal regulatory agencies
- · Organize and focus the political efforts of credit unions
- · Act as the voice of the credit union movement before the public (through the press and other media)
- · Provide education and training resources for the development of credit union staff and volunteers
- · Provide various forums for credit unions to meet and share ideas and views
- · Provide access to cooperative products and services for credit unions

#### **Electronic Check Clearing House Association (ECCHO)**

#### https://www.eccho.org/

ECCHO (Electronic Check Clearing House Organization) is a not-for-profit, mutual benefit, national clearinghouse that is 100 percent owned by its member institutions. Any depository financial institution, regardless of size, is eligible for membership in ECCHO. ECCHO was created in 1990 by banks as a cooperative venture to encourage the use of electronics to enhance the check collection system. In the early years the focus was on electronic check presentment (ECP). Since the passage of Check Clearing for the 21st Century Act (Check 21), ECCHO's primary focus has been the use of image exchange to improve the efficiency of check payments.

ECCHO's primary activities can be divided among three functions: 1) rules development and maintenance; 2) industry education; and 3) industry advocacy.

#### **Electronic Funds Transfer Association (EFTA)**

#### https://efta.org/

The Electronic Funds Transfer Association (EFTA) is a professional association dedicated to the advancement of electronic payments and commerce. EFTA's objective is to inform debate over the consumer, business and policy aspects of new and existing payments technology through public outreach to Congress, the Executive Agencies, consumers, and the media.

Since its founding in 1977, EFTA has represented its members on a range of topics, from ATMs and debit technology to current issues like data breach and cybersecurity, data privacy, and mobile payments. EFTA membership includes top ten banks, payment processors, ATM & debit networks, card companies, technology providers, security companies, ATM owners and manufacturers, and government agencies.

#### Federal Bureau of Investigation (FBI)

https://www.ic3.gov/alertArchive.aspx

https://www.infragard.org/

https://www.fbi.gov/resources/library

http://www.iacpcybercenter.org/resource-center/

Internet Crime Report: In an effort to promote public awareness, the Internet Crime Complaint Center (IC3) produces this annual report to aggregate and highlight the data provided by the general public. The quality of the data is directly attributable to the information ingested via the public interface <a href="www.ic3.gov">www.ic3.gov</a>. The IC3 attempts to standardize the data by categorizing each complaint based on the information provided. The IC3 staff analyzes the data, striving to identify trends relating to Internet-facilitated crimes and what those trends may represent in the coming year.

InfraGard: InfraGard is a partnership between the FBI and the private sector. It is an association of persons who represent businesses, academic institutions, state and local law enforcement agencies, and other participants dedicated to sharing information and intelligence to prevent hostile acts against the U.S.

The FBI also has a number of cyber-related resources available for review.

The Law Enforcement Cyber Center also provides cyber-related resources that may be beneficial.

# Financial Services Information Sharing and Analysis Center (FS-ISAC)

http://www.fsisac.com/

https://www.fsisac.com/about/committees

#### https://soltra.com/en/about/

The Financial Services Information Sharing and Analysis Center (FS-ISAC) – a non-profit, member-driven corporation established in 1999 – helps assure the resilience and continuity of the global financial services infrastructure. FS-ISAC helps its 7,000 financial institution members across 39 countries to share relevant and timely threat and vulnerability information, conduct coordinated contingency planning exercises, and participate in cyber range exercises. The FS-ISAC manages rapid response communications, conducts education and training programs, runs several notable industry events, and fosters collaborations with and among other key sectors and government agencies.

FS-ISAC constantly gathers, analyzes and shares information between its members, supplementing this with information from financial services providers, commercial security firms, government entities, and other trusted resources. It quickly disseminates alerts, analysis, best practices, and other critical information to help the sector to prepare for, respond to, and mitigate risks and threats. FS-ISAC also publishes best practice papers, incident response playbooks, threat reports, executive briefs, and more.

The FS-ISAC includes dozens of committees and special interest working groups. There are several councils that may be of interest to practitioners in the payments system:

- Payments Processor Information Sharing Council (PPISC). The PPISC brings together stakeholders in the payments field to develop
  solutions, identify best practices, and facilitate the exchange of information resulting in a more efficient and secure use of electronic
  payments and related practices. This council has a focus on card payments and includes FS-ISAC members of payment processor
  organizations only.
- Payments Risk Council (PRC). The PRC shares information on current threats and payment risk mitigation for ACH, wire and check
  payments. The council is responsible for producing and conducting the CAPS (Cyber-Attack Against the Payment Systems) exercises. This
  FS-ISAC council is open to payment risk professionals from financial institutions, clearing houses, payment processors and leaders with
  payment risk responsibility for regional and nation payment associations.
- Community Institutions and Associations Council (CIAC). The CIAC shares general information about fraudulent activities such as dates, geographical area, dollar amounts and other information.
- Compliance and Audit Council (CAC). The CAC shares information on industry best practices, discusses the latest regulatory developments
  and works to find out how peer organizations are handling the latest compliance, audit, legal, and control issues.

Participation in the PPISC, PRC, CIAC and CAC requires membership in the FS-ISAC. In addition, the FS-ISAC offers a free membership with very limited services called the Critical Notification Only Participation (CNOP), designed for financial institutions who only want to receive the most critical public alerts.

#### Financial Services Roundtable - BITS

#### http://fsroundtable.org/bits

BITS is the technology policy division of the Financial Services Roundtable (FSR) which delivers thought leadership to address current and emerging technology and security challenges facing the nation's largest financial institutions.

The Fraud Reduction Program reduces fraud losses for member institutions and the industry by identifying fraud trends and examining risks associated with current and evolving areas. Focuses include payment mechanisms and processes, mortgages and home equity lending, remote channels, and various financial services products and technology.

Since 1998, the Fraud Reduction Program has provided financial fraud prevention specialists a place to collaborate, share information, develop best practices, and partner with law enforcement and other organizations fighting financial crime.

# Information Technology - Information Sharing and Analysis Center (IT-ISAC)

#### http://www.it-isac.org/

Founded in 2000 and achieving operational capability in 2001, the Information Technology - Information Sharing and Analysis Center (IT-ISAC) is a non-profit, limited liability corporation formed by members in the information technology sector as a unique and specialized forum for managing risks to their corporations and the IT infrastructure. By joining the IT-ISAC, companies will be participating in the national and global efforts to strengthen the information infrastructure through effective cyber threat information sharing and analysis, while also producing tangible value to the company. Membership in the IT-ISAC can help a company manage risks through analysis, collaboration and coordination and drive informed decision making by policy makers on cybersecurity, incident response, and information sharing issues.

# International Association of Financial Crimes Investigators (IAFCI)

#### https://www.iafci.org/

International Association of Financial Crimes Investigators (IAFCI) members come together from all segments of the financial community, law enforcement and retail establishments. IAFCI's goal is to stamp out financial fraud, provide members investigative support, intelligence sharing, training, and legislative support.

#### Investigative Support:

- · On-line global directory with access to over 4,500 financial industry and law enforcement members
- · Access to the Federal Reserve E-Payment Routing Directory
- · Development of listings of state and federal laws pertaining to financial fraud
- · Ability to post intelligence and requests on a 24/7 secure website and with CrimeDex
- · Links to investigative resources websites

#### Intelligence:

- · Access to intelligence reports, fraud trends, reports on new technologies, and industry tips on a 24/7 basis
- · IAFCI Newsletter highlighting industry and government initiatives and key case activities
- · Worldwide networking capabilities with investigation peers within the financial crimes industry

# **Local Law Enforcement Cyber Center (LECC)**

#### http://www.iacpcybercenter.org/

The Law Enforcement Cyber Center (LECC) is designed to assist police chiefs, sheriffs, commanders, patrol officers, digital forensic investigators, detectives, and prosecutors who are investigating and preventing crimes that involve technology. The LECC also directs visitors to strategic partners who provide training, technical assistance, and access to critical information.

Another important feature of the LECC is the secure law enforcement sensitive information available through the FBI Cyber Shield Alliance (CSA). The CSA is a protected portal that provides an array of FBI cyber-security resources and intelligence for the law enforcement community, such as free online training, alerts, and notifications.

# NACHA - The Electronic Payments Association

#### https://www.nacha.org/risk

Designed to augment other risk assessment and decision-making measures used by originating depository financial institutions (ODFIs), the Terminated Originator Database identifies originators and third-party senders that have been terminated for cause. It does not introduce or imply any prohibition on initiating entries for entities listed. Rather, ODFIs are encouraged to consider this information as a part of their broader underwriting and risk management process. The Emergency Financial Institution Contact Database can be used to find contact information for bank personnel responsible for coordinating threat response activity in the event of a risk incident or emergency.

# National Cybersecurity Center of Excellence (NCCoE)

#### https://nccoe.nist.gov/

The National Cybersecurity Center of Excellence (NCCoE), a part of the National Institute of Standards and Technology (NIST), is a collaborative hub where industry organizations, government agencies, and academic institutions work together to address businesses' most pressing cybersecurity issues. This public-private partnership enables the creation of practical cybersecurity solutions for specific industries, as well as for broad, cross-sector technology challenges. Through consortia under Cooperative Research and Development Agreements (CRADAs), including technology partners—from Fortune 50 market leaders to smaller companies specializing in IT security—the NCCoE applies standards and best practices to develop modular, easily adaptable example cybersecurity solutions using commercially available technology. The NCCoE documents these example solutions in the NIST Special Publication 1800 series, which maps capabilities to the NIST Cyber Security Framework and details the steps needed for another entity to recreate the example solution.

# **National Grocers Association (NGA)**

#### http://www.nationalgrocers.org

The National Grocers Association (NGA) is the national trade association representing the retail and wholesale grocers that comprise the independent sector of the food distribution industry. Also represented are affiliated associations, manufacturers, and service suppliers, as well as other entrepreneurial companies that support NGA's mission and philosophy.

NGA Mission - To ensure independent, community-focused retailers and wholesalers the opportunity to succeed and better serve the consumer through its policies, advocacy, programs and services.

NGA Philosophy - To promote diversity in the marketplace through a vibrant independent sector, and thereby increase consumer choice in price, variety, quality, service and value.

# **National Retail Federation (NRF)**

#### https://nrf.com/

The National Retail Federation (NRF) is the world's largest retail trade association, representing discount and department stores, home goods and specialty stores, Main Street merchants, grocers, wholesalers, chain restaurants and internet retailers from the United States and more than 45 countries. Retail is the nation's largest private sector employer, supporting one in four U.S. jobs – 42 million working Americans. Contributing \$2.6 trillion to annual GDP, retail is a daily barometer for the nation's economy.

# Office of the Comptroller of the Currency (OCC)

#### https://www.occ.gov/index.html

The Office of the Comptroller of the Currency (OCC) charters, regulates, and supervises all national banks and federal savings associations as well as federal branches and agencies of foreign banks. The OCC is an independent bureau of the U.S. Department of the Treasury. The OCC's mission is to ensure that national banks and federal savings associations operate in a safe and sound manner, provide fair access to financial services, treat customers fairly, and comply with applicable laws and regulations.

# **Retail Cyber Intelligence Sharing Center (R-CISC)**

http://www.r-cisc.org/

The Retail Cyber Intelligence Sharing Center (R-CISC) supports retail and consumer oriented industry organizations by enabling cybersecurity information and intelligence sharing. The R-CISC brings retailers, restaurants, grocers, entertainment and media, hospitality and lodging, gaming, theme parks and sports leagues together with cybersecurity industry solution providers into a community of omni-directional information sharing, from tactical threat intelligence to strategic decision support. The R-CISC's mission is to support its members through collaboration to better manage cybersecurity and information security risk.

# The Association for Convenience & Fuel Retailing (NACS)

#### http://www.nacsonline.com

The Association for Convenience & Fuel Retailing (NACS) serves the convenience and fuel retailing industry by providing industry knowledge, connections and advocacy to ensure the competitive viability of its members' businesses. In 2007, the association shortened its name to NACS and added a tagline that better defines its presence both internationally and at the retail fueling level: The Association for Convenience and Petroleum Retailing. In 2010, this statement was further enhanced to The Association for Convenience and Fuel Retailing.

# The Clearing House (TCH)

#### https://www.theclearinghouse.org/

The Clearing House's (TCH) mission is to ensure that the unique collective interests of systemically important commercial banks are adequately addressed before policymakers. TCH seeks to ensure a level playing field among similarly situated market participants, in which a legal and regulatory framework promotes systemic stability, economic growth, and a safe and sound banking system. Unique among trades for its sole focus on large—scale commercial banking and payments issues, The Clearing House and its Owner Banks form strong consensus positions on issues vital to the banking industry that are technically detailed and research- and data-driven.

#### **United States Computer Emergency Readiness Team (US-CERT)**

#### https://www.us-cert.gov/

The United States Computer Emergency Readiness Team (US-CERT) strives for a safer, stronger internet for all Americans by responding to major incidents, analyzing threats, and exchanging critical cybersecurity information with trusted partners around the world.

US-CERT's critical mission activities include:

- · Providing cybersecurity protection to federal civilian executive branch agencies through intrusion detection and prevention capabilities
- Developing timely and actionable information for distribution to federal departments and agencies; state, local, tribal and territorial (SLTT) governments; critical infrastructure owners and operators; private industry; and international organizations
- · Responding to incidents and analyzing data about emerging cyber threats
- · Collaborating with foreign governments and international entities to enhance the nation's cybersecurity posture

# United States Department of the Treasury - Financial Crimes Enforcement Network (FinCEN)

#### https://www.fincen.gov/resources/advisoriesbulletinsfact-sheets

As part of fulfilling its mission to safeguard the financial system and promote national security, the United States Department of the Treasury-Financial Crimes Enforcement Network (FinCEN), through its Financial Institution Advisory Program, issues public and non-public advisories to financial institutions concerning money laundering or terrorist financing threats and vulnerabilities for the purpose of enabling financial institutions to guard against such threats. Advisories often contain illicit activity typologies, red flags that facilitate monitoring, and guidance on complying with FinCEN regulations to address those threats and vulnerabilities. Financial institutions may use this information to enhance their anti-money laundering (AML) monitoring systems for more valuable suspicious activity reporting.

#### **United States Secret Service**

https://www.secretservice.gov

Electronic Crimes Task Force (ECTF): In 1995, the Secret Service created the New York Electronic Crimes Task Force.

As a result of its success, Congress mandated the establishment of a national network to prevent, detect and investigate electronic crimes, including potential terrorist attacks against critical infrastructure and financial payment systems. Today, the Secret Service's 39 ECTFs leverage the combined resources of academia, the private sector and local, state and federal law enforcement.

Financial Crimes Task Force (FCTF): Financial Crimes Task Forces combine the resources of the private sector and other law enforcement agencies in an organized effort to combat threats to U.S. financial payment systems and critical infrastructures. Today, the Secret Service has 46 FCTFs located across the country.
